"Away we go" to the first date dance of the year, "Pair-A-Sights," presented by the Freshman and Sophomore Classes. Rainbow Ballroom, located on the east side of the Lake Washington Bridge, will provide the setting for nine o'clock to twelve o'clock dancing. Johnny Scholtin's eleven-piece band will provide the music.

This year's twin theme will set the pace for programs, decorations and attire.

Ron Peterson Reveals New Alumni Plans

According to a recent release from Ron Peterson, executive secretary for SU Alumni, work on activities for the coming year has now begun.

One of the major factors in coming alumni events is a closer relationship with the students of SU.

Clearly explaining alumni membership, Mr. Peterson states: "Any person who has been enrolled at Seattle U for one quarter or more and has withdrawn may be an active member of the association."

Alumni-student participation will reach its height during Homecoming. A board of judges will work in close contact with student co-chairmen Mary Gay McRae and Don Navoni. The board is scheduled to judge Open House displays and cast collective votes for Homecoming queen.

Following last year's procedure, alumni Homecoming dance remains separated from the student's dance. Anticipating capacity crowds, the alums will dance at the Spanish Ballroom and the Olympic Bowl.

Inaugurating a monthly dinner meeting, the alumni begin their calendar of events. An invitation to attend is extended to all interested students. "Seniors' participation will be particularly welcomed," according to Mr. Peterson.

Major events which have been set to date include:

Fall Dance Nov. 13
Christmas Reception
..... Christmas holidays
Homecoming Luncheon and
Dance January 29
Day of Recollection..Lenten period
Also, a summer picnic is being
planned to initiate '55 graduates.

"Discretion should be used in the selection of twin outfits for the dance," emphasized Jim Quinn, Sophomore Class advisor. Although twin attire is not compulsory, the majority of couples will be dressed in a similar way.

Frosh co-chairmen for the dance are Mike Siguenza and Pat Brady. They are assisted by committee heads: Joey Beswick and Denny Johnson, decorations; Dorie Hay and Warren Shaw, publicity; Tom DeMan and Mary Ann Onorato, programs.

Decorations include a large Noah's Ark, which will be surrounded by the two-of-a-kind animals for which the ark is remembered.

Refreshments will be available at the snack bar.

Tickets will be on sale at the Information Booth in the Liberal Arts Building. They will sell at \$2.00 per couple.

Two new members are Mary Moe, a junior in Marketing, and John Hamill, Political Science major. The remaining senior position has not been filled.

Appointments are subject to the Student Assembly.

Three former members are: Chief Justice Ardis Alfry, senior in Nursing; Mike Weber, Accounting junior; and Duane Greer, a junior in Industrial Engineering.

We were showing a visitor our campus the other day and happened to reach the cafeteria about 12:30 in the afternoon. After she made the proper remarks about size, shape, color scheme and menu, she asked the question we were afraid was coming next:
"Who cleans up when everybody has finished lunch?"
"Well," we said, "we do."
"Oh," replied she, "when?"
Shutting our eyes to the mounds of wadded paper bags, foggy milk bottles topped with bent straws, and plates and cups piled 10 inches high, we launched into an explanation of our bussing system.
"You see," we remarked weakly, "each student puts his dishes in the bussing station and drops his lunch bag in the waste receptacle."
"Oh," said she, "when?"
"When he leaves, naturally," we retorted, wishing we were somewhere else.
"Naturally," she remarked. "I understand now. Everyone lets things collect and then cleans up on Friday. Is that it?"
"Yes, something like that," we muttered. "Wouldn't you like to see our lounge?"
SOS: PLEASE BUSS YOUR DISHES!!!!

Perhaps this is a bit late, but there was an article in the October 11 issue of *Life* that has caused quite a bit of talk. The subject concerned is one of obvious interest to us, namely, the Society of Jesus. An interesting and enlightening collection of well-written facts, it also featured excellent photography and a generally appreciative attitude on the part of the author. One line that we considered particularly apt was, "... the earth cannot tremble without the Jesuits knowing about it." In context, this line referred to the expert work done in seismology. However, to us it summarized what the Jesuits have come to mean: variety of occupations, intensive periods of education, past and present missionary works. Any SU students that happens to read this will probably put it down with the same thought that we had: "My, aren't we lucky?"

Many of us probably do not realize it, but there are still some places where children stricken with polio, or heart disease or one of dozens of other illnesses cannot get proper treatment. As a result, many are crippled for life. Why? Because the means for their care were beyond the means of someone's pocket. None of us likes to think of himself a party to such tragedies. Yet, we grumble when UGN collections are made and consider the "wishing well" in the Chieftain merely a work of art.

Whether we like it or not, our failure to contribute to this fund might mean extra pain and lifelong suffering to someone. We can help remedy this situation if we want to. Right now we're not doing so well. SU has a goal assigned in keeping with the number of people on campus. With the end of the campaign drawing near, we are still about \$1,375 shy of our \$1,714 student goal. Figuring it out, it would take only 80¢ from each of our 2,220 day school enrollment to lift us over the top. Some people can't afford to be sick. Can we afford to help them?

A little way back, we mentioned our 2,220 day school enrollment. Getting more statistical, we found out that only 656 of these are freshmen, leaving 1,564 students. Out of this staggering number, can you guess how many voted in the recent Student Assembly elections? Only 284! This is just a small percentage of our enrollment and doesn't seem to indicate that we care too much about our student representatives. Little can be done about it now. However, with class elections scheduled for today, we have hopes that maybe a few more will prove their interest in school affairs. But then again, perhaps the small number of 284 are the only ones who care. Who knows?

While perusing one of our fair city's more sensational newspapers this morning, I chanced to encounter a most startling fact. Pay attention now, this may change your whole life!

I have always been under the impression that only two people know the future—God and Drew Pearson. However, I see now that simply by consulting a marvelous, all-seeing power endowed with super-natural knowledge, the future is ours to command.

The modest little gem that accomplishes all this, my dear readers, is called a horoscope. Accordingly, I have consulted my good friend and colleague, Dr. C. N. Starrs, and together with him this week and this week only, we are offering the readers of this column your own personal horoscope.

- Briefly now, the deal is this: according to your birthdate, you fall under one of the twelve signs of the zodiac which are: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces. O.K., now here we go:
- March 21 to April 20 (Airy)**—Rather mild vibrations. Much will depend on your test grades.
 - April 21 to May 20 (Walrus)**—Outlook has some unfriendly tones. Maybe it would be better if you had stayed in bed.
 - May 21 to June 21 (Jeeminy!)**—Your planet in benefic configuration. Winds 15 to 20—Whoops! wrong forecast!
 - June 22 to July 23 (Cancer and T.B.)**—Your Mars position indicates possible gains after 11 p.m. Don't try anything before then.
 - July 24 to August 22 (Cleo)**—Encouraging influences, especially for dealing with those in authority, as teachers. However, discretion and prudence are advocated. Kid gloves would help, too.
 - August 23 to September 23 (Vigoro)**—Your Venus is favorably aspected. Your dimples ain't bad either!
 - September 24 to October 23 (Zebra)**—No strong influences in your immediate sector. You'll probably flunk.
 - October 24 to November 22 (Black Widow)**—This can be a tricky day. Watch your step. (Especially on escalators!)
 - November 23 to December 22 (Stradivarius)**—According to your chart, you shouldn't have made it this far, better head for home.
 - December 23 to January 21 (Fullacorn)**—You probably feel very energetic, capable of smart business transactions now. Relax, Dad, it's only a passing fancy.
 - January 22 to February 20 (Aquarium)**—Favorable rays for sun-sets, but not for you. Hang it up. Maybe tomorrow.
 - February 21 to March 20 (Pieces)**—Your self-reliant and determined nature will be a big asset to you today. It should be, you've read this far.

The Wooing

By the shores of Par-T-Pak
By the sparkling soda water,
Lived the mellow flavored driplet,
Ovaltine, fair Cocoa's daughter.
She was loved by Instant Postum,
Son of Hills and Pepsi Cola,
Heir apparent to the Royal Crown
Of the tribe of Coca Cola.
Thru Shredded Wheat they wandered,
Thru the groceries strolled the lovers,
Lovely little mellow driplet
And the brave undaunted Postum,
Ever watchful, waiting, fearful
For his enemy, Caffein.
Never failing in his battle
Or his love for Ovaltine,
And now long years have passed
them by
But they can still be seen,
They're on the grocery shelf today,
And little Hemo's in between.

NOTES off the cuff JIM PLASTINO

This week we should like to do something which is somewhat of a rarity for this column. We are actually going to praise a few people.

A volume could be written about the wonderful group of individuals who make this paper what it is. We are referring to the reporters, re-writers, typists, headline writers, advertising men, circulation workers and office help.

Whatever success the *Spectator* has had, or will have, can be attributed to their ability and eagerness to work. In only three short weeks they have become an efficient, loyal group dedicated to turning out the best newspaper possible. These students receive no reward for working off the *Spectator* other than the satisfaction of a job well done.

In this respect, they have every reason to be proud. They are among the unsung heroes of this University.

In passing, we would also like to pay tribute to a fine sports writer, Jack Sullivan, who leaves us this week because of the demands of studies and other activities. Jack has not only been a devoted and capable writer but also a great personality around the *Spectator* office. His absence will be sorely felt.

Several news items came out of Music Department this week. Most important among them is the fact that the Activities Board, a group composed of the presidents of all the clubs on campus, will decide what operetta SU will produce this year. This is indeed an innovation since the Music Department has always been the sole judge in this matter.

We've just got one thing to say: Please, ladies and gentlemen of the Activities Board, do not choose a show of the calibre of "Eliza and the Lumberjack." It may save money, but then it isn't much fun playing to an empty house.

According to our good friend, Steve Allen, the Drama Club will produce the familiar play "Arsenic and Old Lace" December 13, 14 and 15 at the Woman's Century Theatre. "Arsenic and Old Lace" has

A Soggy Song

JOE READ

I never kick about the weather,
Nor ever do I wonder whether
Too much rain will set the tuber
Market on its ear
This year.

When hearing the elite forecasters
Formulating northern blasters,
Telling atmospheric pressure
In their gloomy style,
I smile.

When streets are hub-cap deep
from raining,
Even when it's hurricaning,
My spirits remain high and dry,
Though my feet are wet.
You bet!

A quick glance toward those leaden
skies
And you, too, soon will realize
It's rain . . . rain . . . rain that
makes
This life so carefree and worth-
while.
So smile!

Heed not the rainophobic lecture,
Disregard the vague conjecture
From the mouths of those who wish
To rearrange the rains.
No brains!

Oh, sing my song of rain-drenched
glee,
And buy your raincoat now, FROM
ME!

enjoyed continued success ever since it was introduced back in the 1940s.

If past performances are any criterion of the caliber of this show, the Drama Guild should "pack 'em in" come opening night.

We notice in Louie Guzzo's column in the *Seattle Times* that Seattle University has been invited to join a proposed league of schools that would promote the appearance of famous musicians and lecturers at each of the member schools. This league would include such schools as the University of Washington, Washington State College and Gonzaga University. Eleven schools in all have been invited to join.

Under this arrangement, a performer who would usually charge \$1,000 could be obtained for as little as \$200.

This league looks good to this observer from every angle. We talked to the head of the Music Department, Father Reidy, the other day, but he was unable to give us anything concrete. Seems that the final decision is up to the President of the University, who could not be reached for comment.

However, there is the problem of an auditorium to house these concerts and lectures. We suggested the gym but it seems that the basketball team will be using the floor for the better part of the next four months. We'll just have to wait and see.

Rehearsals for the Variety Show are in full swing and the latest word is that Mr. Francis Aranyi is doing an incredible job with the student orchestra. From all the reports we've received, it appears as if SU will at long last have a polished, top-flight orchestra.

Track Meeting

There will be a meeting for all those interested in turning out for track in room 219 of the Liberal Art Building, on Thursday, Oct. 28, at 7 p.m. Plans are being made for an interesting schedule of meets.

Competition will be with small colleges and under the sanction and sole direction of the Pacific Northwest Association of the AAU and has no connection whatsoever with the Seattle University athletic program.

Chieftains Schedule 26; Brightman Sets Practice

Fourteen games on the road, 12 home games in the Civic Auditorium, and one in the Seattle Pacific gymnasium compose Seattle University's 26-game schedule for the 1954-1955 basketball season, announced last week by Athletic

Director Willard Fenton.

The Chieftains will open the season at Bellingham, Wash., against Western Washington College on December 4.

The following week they open their home season, when Idaho

State arrives in town for a two-game series with Al Brightman's crew, whom they defeated, 77-75, to gain the NCAA regional playoffs in Corvallis, Ore., last season.

After a three-game Midwestern trip the Chiefs return for a single game with Loyola University of Los Angeles on January 28, which will highlight Homecoming Week activities.

Seattle closes the regular season on March 1 and 2, again meeting Idaho State in Pocatello.

Meanwhile Chieftain coach Al Brightman announced that the varsity will hold their first turnout Monday, Nov. 1.

This year's addition of the Chieftains will be faced with the problem of replacing two stellar athletes, the "Big Chief" Joe Pehanick, last year's pivot man, and sturdy, dependable Wayne Sanford, who will turn his talents to the Northwest AAU league.

The initial turnout will include nine of last year's club, paced by Stan Glowaski, John Kelly, and Bob Malone, all two-year veterans. One-year men include Cal Bauer, Tom Cox, Al Giles, Bob Godes, Jack Hoskins and Larry Sanford.

Al Brightman was pleased with the news that 6-ft. 5-in. Ken Fuhrer, an outstanding product from Port Angeles, has transferred from Olympic JC where he was an all-conference selection for two years. In addition, Don McDougall, a member of the 1953 Papooses, who was sidelined last year with a back injury, will be out for the first drill.

Up from last year's Papoose team Coach Brightman will welcome 6-ft. 6-in. Dick Stricklin, Bill Bigley, Jim Harney, Bob Martin and Gary Miller.

Gropper, Kay Win First Week Honors

Seattle U's keggers opened their bowling season last week with a surplus of high scores and an encouraging turn-out.

The scoring reached a three-game high of 518 for the gents and a 406 for the ladies. Paul Kay and Marilyn Gropper were the artists, and they also took individual game honors, with Paul hitting a 198, and Marilyn a 161. To top this, they finished the afternoon with the highest averages, Paul at 173 and Miss Gropper garnering a 135 for the three-game series.

Other high average scorers for the men included Roy Gorud with 167, Leo Fergel 165, George Crispin 162, Ralph Durley 153, and Duanne Hogel 148.

Pacing the ladies, besides Miss Gropper, were Frances Borros at 127, Mary Lane 124, Dixie Galbraith 119, Peggy O'Neil 112 and Jo Ann Engler 107.

JACK WEBB AND BEN ALEXANDER

You know them best as Sgt. Joe Friday and Officer Frank Smith — stars of Chesterfield's award-winning "Dragnet" on TV and Radio. They're now starred in the movies, too, in Warner Bros.' great new picture, "Dragnet."

WHAT A PAIR!

WHAT A BUY! Chesterfield regular and king-size. (Both at the same price in most places).

Jack Webb and Ben Alexander want what you want from a cigarette. Relaxation, comfort, satisfaction. They know where to find it—because in the whole wide world, no cigarette satisfies like a Chesterfield.

Chesterfields are best to smoke because they alone have the right combination of the world's best tobaccos.

Chesterfields are best for you because they're highest in quality, low in nicotine.

tion, is about a two-mile hike each way.

Vans leave at 9 a.m. from the north end of the Mall and arrive back at Seattle University about 7 p.m.

Hike leaders promise this trip to be less fatiguing, inasmuch as it is shorter and less steep than the last one. In addition, the motor trip is 50 miles shorter.

Part of the way to the lake is an open logging trail and another part is virgin forest. According to some of the veteran Hiyus, it is one of the best trips of the year.

Hike leaders warn that because fall weather is definitely upon us hikers should dress in expectation of a wet trail.

The hike fee will be the usual \$1 to defray the cost of the vans, and everyone should bring a trail lunch. Coffee stops will be made going and returning.

What makes a Lucky taste better?

"IT'S TOASTED"

to taste better!

Doubtless, you've guessed that the Droodle at the right is: Careless two-gun cowboy enjoying better-tasting Lucky while waiting in ambush. Lots of other two-gun cowboys—and many millions of no-gun folks—agree that Luckies taste better. Students, for example, prefer Luckies to all other brands, according to the latest, biggest coast-to-coast college survey. Once again, the No. 1 reason is that Luckies taste better. They taste better because Lucky Strike is the cigarette of fine tobacco . . . and "*It's Toasted*" to taste better. "*It's Toasted*"—the famous Lucky Strike process—tones up Luckies' light, mild, good-tasting tobacco to make it taste even better. So, enjoy the better-tasting cigarette . . . Lucky Strike.
